WASHINGTON WINS BIG LOVING CUP

Playground Activities End at Annual Festival Held at J. D. Oliver's.

The fifth season of the South Bend playground workers game to its close Saturday afternoon at J. D. Oliver field. The rain about noon kept many participants and spectators away from the playground festival so many of the stunts had to be called off and shortened. About 1,600 spectators watched the festival.

Washington playground was awarded with a 10 inch loving cup donated by the Clauer jewelry store for all around city championship. Leeper park was second and J. D. Oliver, third, for this honor.

Award Pennants. Pennants were awarded to the championship teams of both track and field volleyball and playground ball. The following playgrounds were awarded the track and field pennants: Midget girls, Kaley; Junior girls, Kaley; Senior girls, Perley; Midget boys, J. D. Oliver; Junior boys, Leeper; Senior men, Leeper.

Pennants in volleyball and playground ball were awarded to the following: Senior girls volleyball, Washington; Junior girls volleyball, Washington; Midget girls bat ball, Perley; Senior girls playground ball, Perley; Junior girls playground ball, Washington; Midget boys playground ball, Pottawatomie; Junior boys playground ball, Division; Senior men playground ball, Washington.

Each pennant won gave five points toward the City all around championship, the Washington girls being the real winners. The losing team in a championship game was awarded three points, while in a track meet the third team was given one.

BRUINS WIN CONTEST IN OPENING INNINGS

By Associated Press.
CHICAGO, Aug. 30.—Chicago defeated St. Louis today, 5 to 3, by bunching hits in the early innings before May got settled. Hendrix was hit hard but tightened up in the pinches and was given good support. The batting of Schultz, who made four hits, including a triple and a double, in five times up was a feature. Score:

BIG SHOOT AT ST. JOE GUN CLUB LABOR DAY

Trapshooters numbering 125 are expected to compete in the second annual Labor day meet to be held on the range of the St. Joe Valley gun club. There will be 150 targets shot at 10 events consisting of 15 men each, and the money will be divided under the equitable system. Forty trophies will be awarded to the winners who will be classed according to their ability at the time of entry. The shoot will open at 10 o'clock although the grounds will be open for practice at 8:30 o'clock in the morning.

Frank Gustafson was high man in Saturday's shoot, breaking 95 out of 100. Saturday's score follows: Out of 100 shots, F. Gustafson, 95; R. B. McNery, 93; W. D. Staples, 93; W. Meyers, 93; Dr. L. J. Smith, 89; E. J. Caddy, 89; A. J. Muesel, 88; W. H. Holland, 86. Out of 75: G. Stevenson, 74; S. Zeiler, 53; Mrs. Meyers, 52. Out of 50: H. Gieger, 48. Out of 25: C. McLoughlin, 21; J. W. McHenry, 18.

MAMAUX LETS GIANTS DOWN WITH FIVE SWATS

By Associated Press.
BROOKLYN, Aug. 30.—Mamaux held New York to five scattered hits, only one of which was clean, and Brooklyn won, 5 to 1. The Giants scored their solitary run on a pass, Zimmerman's scratch hit, a forced play and Miller's wild throw. Brooklyn scored in the first inning on two hits, a steal and a force. They bunched two singles, a sacrifice and Kilduff's double in the fourth for two more runs. Score:

BOARD GIVES WRITER CLAIM AGAINST LEAGUE

AUBURN, N. Y., Aug. 30.—The National board of the National Association of Professional Baseball leagues today allowed a claim of E. W. Dickerson, a Western newspaper writer, for \$5,425 against the Western Baseball league for alleged breach of contract.

Mr. Dickerson was elected to the presidency of the league in 1917 for a three year term and when the league suspended in July, 1918, on account of war conditions, went overseas as a soldier. A. R. Tierney of Chicago, was tendered and accepted the presidency of the league last February, a month before Mr. Dickerson's return to this country.

The board also affirmed its previous decision denying the application of the Texas league to be advanced to a class A rating.

New rules for the drafting of players were announced by Sec'y John H. Farrell. The drafting period will run from October 1 to 10 inclusive. On Oct. 1, 2, and 3, class AA clubs may draft one player from class A clubs for \$3,000. On Oct. 5, 6 and 7, class A may draft from class B, unrestricted number at \$1,000 each; and on Oct. 8, 9 and 10 class B may draft from class C unrestricted, at \$500 each and class C, from class D, unrestricted at \$350 each.

ILLINOIS WOMAN WINS WESTERN GOLF HONORS

DETROIT, Mich., Aug. 30.—Mrs. Perry Fisk, DeKalb, Ill., won the Championship of the woman's western golf association today chiefly through her brilliant play from hazards, defeating Mrs. F. C. Letts, Jr., of Chicago, twice western champion, 3 and 2 in the 18 hole final.

Twice during the second nine was the lead at stake on Mrs. Fisk's play from hazards and both times she came out of trouble within a foot of the hole, halving one, which had seemed lost and winning the other.

HEAVY SEA KEEPS TIME DOWN AT BOAT RACES

DETROIT, Aug. 30.—Miss Detroit II won the second 20 miles heat of the Gold cup race here today, leading the Miss Detroit III across the line by one second. The winner's time was 59:55, an average of only 30.03 miles an hour.

The speed was kept down by a heavy sea. This produces a tie for first place as Miss Detroit III won yesterday.

ROYAL GIANTS DEFEAT LAPAZ BASEBALL TEAM

The Royal Giants baseball team defeated the Lapaz nine Saturday afternoon at the Lapaz diamonds by the score of 18 to 6. Bennett, the Royal Giant pitcher, fanned 12 men, and he was touched for four hits. Today the Royal Giants will meet the Lassalle Theater nine at Leeper park.

PERRY MCGILLIVRAY

CHICAGO, Aug. 30.—Perry McGillivray, Illinois Athletic club, won the National A. A. U. 100-yard swimming championship by a scant yard from Ted Cann, New York Athletic club today in the time of 1:05 4-5. Norman Ross, I. A. C., former champion, was third.

Cann had a slight margin at 75 yards, McGillivray having got out of his lane, but spurred ahead when he saw yards from the finish.

Here's the Latest Way to Get Rich in the Ice Trade

SAYS PEOPLE WOULD PAY FOR 'PLUMB PLAN'

John Shanefelt, 1723 Marietta st., decided to go into the ice business. He thought he would work up an ice route first so made the rounds of a number of saloons in the western section of the city. Knowing that whisky needed considerable ice around it he believed he could best find out what amount of ice was needed by ascertaining whether whisky was sold in the various places.

He stole 60 cents worth of tickets from his employer and sold them to saloonkeepers—not just drink proprietors—but was caught in the act.

In city court he told Judge Frank Gilmer he stole the tickets while drunk, and as evidence of the fact that he was drunk cited the following locations as emporiums where whisky can be obtained: Walnut and Division sts., on the northwest and northeast corners; Harris and Division sts., on the southeast and southwest corners; one half block south on Division st. on Harris st., on both corners.

As a reward he drew five and costs with 60 days, all suspended.

WILMETTE, Ill. — "Are you ill?" asked a feminine voice over the phone. "Yes, but what of it?" queried Pastor Kelly, sitting in his study. "Nothing, only you have a date to marry me and I've been waiting two hours."

Union Pacific Head Declares Labor is Trying to Russinize Rails.

By United Press.
NEW YORK, Aug. 30.—The Plumb plan is an effort to Russinize American railroads and apply to them the soviet system, according to Judge R. S. Lovett, head of the Union Pacific railroad.

In an interview with the United Press today, Judge Lovett characterized the Plumb plan as an assault upon American institutions which the mass of railroad employees as well as citizens fail to understand.

Holding that the American people rather than railroad owners or executives would suffer most if the Plumb plan were attempted in operation, Judge Lovett said:

"The Plumb plan, as I grasp it, is plainly an effort to Russinize American railroads; that is, to turn over each industry to the employees operating it for exploitation in their own interest."

Owners Would Be Paid.
"Whether the government takes the railroads for operation by the government, as ordinarily understood, for the interest of all the people, or takes them for operation in

the interest of railroad employees exclusively, as proposed by the Plumb plan, is probably not very material to the railroad owners or investors as such. In either case, so long as we have a constitution, the owners would be paid for the railroads.

"In that view, and in that sense, opposition to the Plumb plan is not the fight of railroad owners, as such, or of the railroad executives representing the railroads, but is a matter that concerns all the citizens of every class and occupation.

"If the government takes and pays for the railroads and then turns them over to the employees to operate in their own interest, the result is easily foreseen.

Wages Have Jumped Rapidly.
"Since the beginning of federal control, the wages of railroad employees have been increased approximately one billion dollars per annum, making the total annual wages to the railroad employees about \$2,700,000,000 while the total payable by the government for the use of the railroads is about \$892,000,000 per annum, out of which \$450,000,000 must be paid for interest on bonds, leaving only about \$442,000,000 to the owners of the railroads, or less than one-half of the additional or increased wages paid to labor.

"If the railroads are turned over to those operating with unlimited authority to fix their own wages and hours of work, it is obvious that transportation rates will have to be increased again and again until they become unbearable.

"Human nature makes it impossible that human men should be allowed to fix their own wages and own hours of work for others to pay.

"People Will Pay."
"It is the people who will pay the freight rather than the railroad owners that are most interested in the Plumb plan. The farmer, whose products are worth less without transportation, the consumer of these products, the manufacturer in every line of industry and indeed, all the people will suffer the consequences of exploitation of the railroads by the unrestrained selfishness of those engaged in the operation of them.

"If the Plumb plan should be adopted there would be the constitution to protect the owners of the railroads against the taking of their property without just compensation, but there will be no protection to the shipping and traveling public against the wasteful extravagance of the operatives in fixing their own wages, or against the inefficient service that would inevitably follow the abolition of all discipline.

EDGREN RUMOR UNCONFIRMED

An unconfirmed rumor is going the rounds in South Bend which makes known the fact that Paul "Swede" Edgren, former pitcher for Notre Dame has been signed by the Boston club of the American league.

Edgren is now working in an automobile factory in Flint, Mich., and his friends declare that if the report were true, they would have heard of it.

OVERLANDS TO PLAY.

The Overland baseball team will play the Brigman, Mich., team Sunday afternoon at Brigman. The Michigan team is expected to be exceedingly strong, and are anxious to break the Overlands' winning streak. A new hurler will be seen in the box for the Overland squad.

YOU'LL FIND ME AT HOME, SAYS PERRY

Invites Everybody to Come See What Tanlac Has Done—Suffered 30 Years.

"Well, sir, I've spent hundreds of dollars and tried all kinds of medicines and treatments, but Tanlac has brought me more relief than everything else I've tried in the past thirty years all put together," declared Thomas J. Perry, of the Johnson Service Company who lives at 680 Thirty-second st., Milwaukee, a few days ago.

"I guess I've had my share of suffering," he continued, "For thirty years I have hardly ever been free from a dull ache across my back. It got so bad that when I would bend over I couldn't straighten up again without almost fainting from pain; and many times I've been laid up in bed hardly able to turn over. Often I would wake up in the night with this cutting pain across my back and just twist and squirm trying to get in some position that would be easy and in the mornings I would be so crippled up I could hardly dress myself. Toward night I would almost always be seized with awful cramps in my legs and it felt like my muscles were tied in knots. These would last five or ten minutes and then came back later and I tell you the pain was terrible. The doctors said my kidneys were all out of order, but medicines of all kinds and even rubbing treatments didn't seem to do me any good at all.

"I was just about disgusted with it all when I began reading about people here getting such wonderful results from Tanlac and decided to give it a trial. That was the wisest thing I ever did, for Tanlac began to help me right from the start. It's the honest truth I've had only one touch of pain in my back and one slight cramp in my legs since that day I began taking it. I am improved all over as a result of taking this medicine and if anybody doubts what Tanlac has done for me you'll find me right here at home and you can see for yourself that it's made a new man of me out and out."

Tanlac is sold in South Bend at the Central Drug Store, and in Milwaukee at the Red Cross Pharmacy.

CRYSTAL CLEAR MICA COMPANY

INCORPORATED UNDER LAWS OF INDIANA
CAPITALIZATION \$100,000

10,000 Shares—Par Value \$10.00—All Common Fully Paid and Non-Assessable.

Property— The Crystal Clear Mica Company owns outright through purchase forty acres of land in Randolph County, Alabama. This land is rich in heavy deposits of the highest grade Mica, namely Muscovite Mica.

Prospective Earnings— The following excerpts from the report of Oscar H. Reinholdt, former Government Engineer 1903-1904-1911 and 1912, are self-explanatory and give clearly and concisely the possibilities for profit in the mining of Muscovite Mica:
"The Mica on this property is the most easily and most profitably marketable because it requires but little equipment for mining and transportation and involves very little loss of time for preliminary operation, as the property is open, so you can produce more than a FACTORY CAN HANDLE FROM THE VERY FIRST."

"The Mica mining may be made to yield immense profits from this property."

"ON AN ANNUAL OUTPUT OF 3,000 TONS, BASED ON 10 TONS A DAY, MINE RUN, SHOULD HAVE A GROSS VALUE OF \$750,000.00."

"In order to leave a net profit of \$500,000, the cost of the Mica could be placed as high as \$80.00 per ton f. o. b. Chicago."

Three-fourths of all the Mica produced is used in the electrical industry. Without Mica electricity would be practically useless.

Mica is sold in the form of sheet mica, splittings and ground mica. There are one hundred and fifty-five different sizes of cut sheet mica, and eighty-four different sizes of washers and discs in the standard price list. A few of the principal uses of Mica are:

Phonographs—Automobiles—Annealing of Steel, Lubrication—Fancy Paints—Wall Paper—Ornamental Tile—Concrete—Rubber Goods—Pipe and Boiler Coverings—Insulating Compounds—Fireproof Roofing—Sand Blasting—Electric Lights—Stoves—Calico Printing—Automobile Accessories—Tar and Roofing Papers—Thermometers—Electric Irons—Electric Toasters—Percolators—Street Cars—Motors—Telephones—etc.

The uses are so numerous that one can readily appreciate the value of so important a mineral and the almost inexhaustible market for same.

MICA IS THE ONLY KNOWN INSULATING MATERIAL THAT IS FLEXIBLE, WILL WITHSTAND HIGH TEMPERATURES AND THE ACTION OF CHEMICALS AND STILL MAINTAIN RESISTANCE TO HIGH ELECTRICAL VOLTAGE.

The demand for Mica, particularly the clear white Muscovite Mica in all its forms, so far exceeds the supply in the United States that an increase of 100% in production would be necessary to meet the local manufacturing requirements.

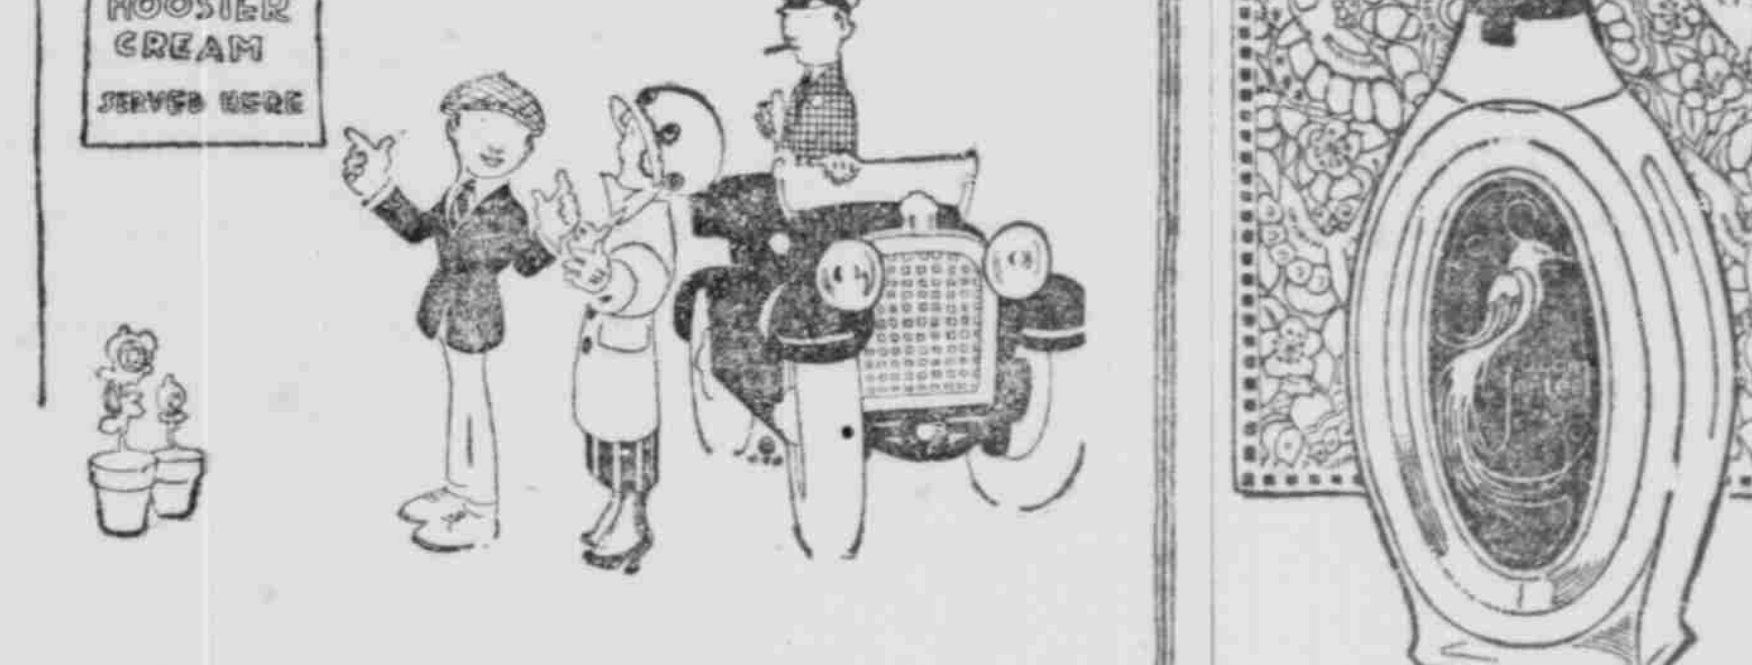

FROM 1910 TO 1917 (11 months only) INCLUSIVE, THE UNITED STATES IMPORTED ALMOST THIRTEEN MILLION (13,000,000) POUNDS OF MICA.

Legal proceedings have been approved by our counsel, Messrs. Shively and Gilmer, of South Bend, Ind. The Union Trust Company, South Bend, Ind., registrar and transfer agents.

As a majority of this stock has already been sold, we offer the remaining amount, subject to allotment and confirmation, at \$10.00 NET PER SHARE Descriptive Circular on request.
